

FAST-PASS® SCHOOL K-12 SOLUTION

With hundreds of schools utilizing **FAST-PASS®**, processing thousands of visitors daily, **FAST-PASS®** supports the largest district-wide school security solution in the country. **FAST-PASS®** creates a safer environment for students and faculty by removing the opportunity for predators to act on their intentions. Know who is in your school with automated identity checks against sexual predators, offender watch lists and any other available criminal databases. Sexual predators bask in their anonymity. **FAST-PASS®** gives them an identity. Given its ability to also produce employee identification badges, **FAST-PASS®** is the ideal choice for replacement of existing badging systems that do not offer its wide array of security features.

- Compliance with national sex offender acts which require visitor control and background checks
- Provides instant visual verification of authorized parents and guardians
- Prescreens volunteers, chaperones and mentors
- Checks sexual predator, criminal and internal watch lists automatically
- Customizable district-wide alerts
- Student, faculty and vendor photo badging
- Easy to use, just point and click
- Biometric & RFID capabilities for student accountability

FAST-PASS® CAPABILITIES

- Produces pictured visitor, volunteer or vendor passes in addition to standard employee badges in seconds
- Stand alone system or networked district wide with other facilities
- Deny entry to any unwanted visitor or vendors, site specific and/or district wide
- Full historical database of visitor information, eliminating paper log books
- Automated alerts can be sent via e-mail or to a cell phone within seconds
- Automated data entry with a swipe or insert of driver's license, detecting fraudulent or tampered documents
- Scalable to support biometrics, RFID technology and emerging technologies
- Provides Human Resource departments the ability to perform significantly more comprehensive background checks
- Multiple options for access control integration available
